(1) Total includes supplementary labour income; industry data is wages and salaries. Annual supplementary labour income by industry is available on request.

(2) Annual data are the averages of the monthly indexes. How the fixed-weighted indexes (1986=100) are constructed is described in the September 1989 issue of the CEO.

(1) Le total inclut le revenu supplémentaire du travail, les données désagrégées par industrie portent sur les salaires et traitements. Les données annuelles sur le revenu supplémentaire du travail par industrie sont disponibles sur demande.

(2) Les données annuelles sont la moyenne des indices mensuels. L'article de l'édition de septembre 1989 de L'O.É.C. décrit en détail la construction de ces indices à pondération fixe (1986=100).

(1) Annual data are averages of the monthly estimates except for benefit weeks and claims received, where the sums are used. Another estimate of insurance coverage, derived from annual tax returns filed with Revenue Canada, is also available on request.

(2) The calculation of these figures changed as of July 1, 1996, as did the CANSIM identifiers for the series, due to definitional differences created by new legislation.

(3) Includes all strikes and lockouts, legal or illegal, lasting one-half day or more and amounting to 10 or more person-days lost. Time lost by workers indirectly affected, such as those laid off because of a stoppage by other employees, is not included.

(4) Effective annual percentage increase in base rates.

(1) Les données annuelles sont obtenues en calculant la moyenne des totaux mensuels sauf dans le cas du nombre de prestations et des demandes initiales et renouvelées pour lesquelles on prend la somme. Une autre estimation annuelle du nombre de personnes visées par l'assurance, tirée des déclarations d'impôt de Revenu Canada,est disponible.

(2) À partir de juillet 1996, ces séries son calculées différemment et les identificateurs de CANSIM ont changé en raison des nouvelles définitions attribuables aux modifications législatives.

(3) Comprennent tous les lock-out et les grèves, qu'ils soient légaux ou illégaux, d'une durée d'une demi-journée ou plus et représentant 10 jours-personnes ou plus de temps perdu. Le temps perdu par les travailleurs indirectement touchés, comme ceux qui sont mis à pied par suite de l'arrêt de travail d'autres employés, n'est pas compris.

(4) Augmentation annuelle effective des taux de base en pourcentage.

(1) Total exports include domestic exports and re-exports.
(2) The figures reflect a number of adjustments applied to the customs totals to make them consistent with the concepts and definitions used in the system of national accounts. For more information about these adjustments, refer to Quarterly Estimates of the Canadian Balance of International Payments (Catalogue no. 67-001-XIB).
(3) Sums of components do not equal totals, due to balance of payments adjustments.

(1) Les exportations totales comprennent les exportations nationales et les réexportations.
(2) Les chiffres tiennent compte d'un certain nombre d'ajustements apportés aux totaux douaniers afin de les rendre compatibles avec les concepts et les définitions utilisés dans le système des comptes nationaux. Pour plus de renseignements à propos de ces ajustements, voir la publication Estimations trimestrielles de la balance canadienne des paiements internationaux (nº 67-001-XIB au catalogue).
(3) Le total ne correspond pas à la somme des composantes en raison des ajustements de la balance des paiements.

(1) Retail sales estimates exclude the Goods and Services Tax (GST). Prior to January 1991, sales data included the Federal Sales Tax (FST). Due to this change in indirect taxes, data for 1991 and after are not strictly comparable with those of previous years. For users interested in deriving comparable data, an estimate of the amount of FST included in sales for 1990 is available.

(1) Les estimations des ventes de détail excluent la taxe sur les produits et les services (TPS). Les données sur les ventes antérieures à janvier 1991 incluent la taxe de vente fédérale (TVF). Dû à ce changement dans les taxes indirectes, les données à partir de 1991 ne sont pas tout à fait comparables à celles des années précédentes. Pour les utilisateurs intéressés à calculer des données comparables, une estimation du montant de la TVF inclus dans les ventes pour 1990 est disponible.

(1) Annual data are averages of the monthly estimates except for benefit weeks and claims received, where the sums are used. Another estimate of insurance coverage, derived from annual tax returns filed with Revenue Canada, is also available on request.

(2) The calculation of these figures changed as of July 1, 1996, as did the CANSIM identifiers for the series, due to definitional differences created by new legislation.

(3) Includes all strikes and lockouts, legal or illegal, lasting one-half day or more and amounting to 10 or more person-days lost. Time lost by workers indirectly affected, such as those laid off because of a stoppage by other employees, is not included.

(4) Effective annual percentage increase in base rates.

(1) Les données annuelles sont obtenues en calculant la moyenne des totaux mensuels sauf dans le cas du nombre de prestations et des demandes initiales et renouvelées pour lesquelles on prend la somme. Une autre estimation annuelle du nombre de personnes visées par l'assurance, tirée des déclarations d'impôt de Revenu Canada,est disponible.

(2) À partir de juillet 1996, ces séries son calculées différemment et les identificateurs de CANSIM ont changé en raison des nouvelles définitions attribuables aux modifications législatives.

(3) Comprennent tous les lock-out et les grèves, qu'ils soient légaux ou illégaux, d'une durée d'une demi-journée ou plus et représentant 10 jours-personnes ou plus de temps perdu. Le temps perdu par les travailleurs indirectement touchés, comme ceux qui sont mis à pied par suite de l'arrêt de travail d'autres employés, n'est pas compris.

(4) Augmentation annuelle effective des taux de base en pourcentage.

1) Total exports include domestic exports and re-exports.
2) The figures reflect a number of adjustments applied to the customs totals to make them consistent with the concepts and definitions used in the system of national accounts. For more information about these adjustments, refer to Quarterly Estimates of the Canadian Balance of International Payments (Catalogue no. 67-001-XIB).
3) Sums of components do not equal totals, due to balance of payments adjustments.

(1) Les exportations totales comprennent les exportations nationales et les reexportations.
(2) Les chiffres tiennent compte d'un certain nombre d'ajustements apportés aux totaux douaniers afin de les rendre compatibles avec les concepts et les définitions utilisés dans le système des comptes nationaux. Pour plus de renseignements à propos de ces ajustements, voir la publication Estimations trimestrielles de la balance canadienne des paiements internationaux (nº 67-001-XIB au catalogue).
(3) Le total ne correspond pas à la somme des composantes en raison des ajustements de la balance des paiements.

(1) Retail sales estimates exclude the Goods and Services Tax (GST). Prior to January 1991, sales data included the Federal Sales Tax (FST). Due to this change in indirect taxes, data for 1991 and after are not strictly comparable with those of previous years. For users interested in deriving comparable data, an estimate of the amount of FST included in sales for 1990 is available.

(1) Les estimations des ventes de détail excluent la taxe sur les produits et les services (TPS). Les données sur les ventes antérieures à janvier 1991 incluent la taxe de vente fédérale (TVF). Dû à ce changement dans les taxes indirectes, les données à partir de 1991 ne sont pas tout à fait comparables à celles des années précédentes. Pour les utilisateurs intéressés à calculer des données comparables, une estimation du montant de la TVF inclus dans les ventes pour 1990 est disponible.

Data contained in the tables are as available on June 28, 2002.

Some tables contain selected components and thus do not add to the totals. As well, most figures are rounded.

The identification numbers at the top of each column of data refer to the CANSIM Identifier.

Unless stated otherwise, all telephone numbers have a 613 area code.

The letter "*x*" indicating suppressed data to meet the confidentiality requirements of the Statistics Act.

The letter "v" indicating the Cansim series numbers, also referred to as vector numbers (example: *V498076*), will no longer be displayed in the tables.

Les données publiées dans les tableaux sont les données disponibles le 28 juin 2002.

Certains tableaux comprennent des composantes choisies et donc leurs sommes diffèrent des totaux. De plus, la plupart des données sont arrondies.

Les numéros d'identification au-dessus de chaque colonne de données correspondent à l'identification de CANSIM pour les données correspondantes.

À moins d'avis contraire, tous les numéros de téléphone sont dans l'indicatif régional 613.

La lettre "*x*" indique que les données ont été supprimées pour répondre aux exigences de confidentialité de la loi sur la statistique.

La lettre "v" identifiant les numéros des séries dans CANSIM, aussi appelés les nombres vecteurs (par exemple: *V498076*) n'apparaîtra plus dans les tableaux.

(1) Annual data are averages of the monthly estimates except for benefit weeks and claims received, where the sums are used. Another estimate of EI, derived from annual tax returns filed with Revenue Canada, is also available on request.

(2) The calculation of these figures changed as of July 1, 1996, as did the CANSIM identifiers for the series, due to definitional differences created by new legislation.

(3) Includes all strikes and lockouts, legal or illegal, lasting one-half day or more and amounting to 10 or more person-days lost. Time lost by workers indirectly affected, such as those laid off because of a stoppage by other employees, is not included.

(4) Effective annual % increase in base rates.

(1) Les données annuelles sont obtenues en calculant la moyenne des totaux mensuels sauf dans le cas du nombre de prestations et des demandes initiales et renouvelées pour lesquelles on prend la somme. Une autre estimation annuelle du nombre de personnes visées par l'assurance-emploi, tirée des déclarations d'impôt de Revenu Canada,est disponible.

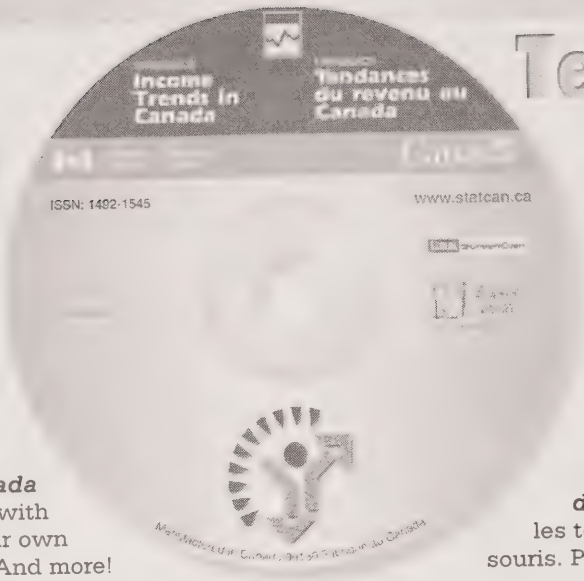

(2) À partir de juillet 1996, ces séries son calculées différemment et les identificateurs de CANSIM ont changé en raison des nouvelles définitions attribuables aux modifications législatives.

(3) Comprennent tous les lock-out et les grèves, qu'ils soient légaux ou illégaux, d'une durée d'une demi-journée ou plus et représentant 10 jours-personnes ou plus de temps perdu. Le temps perdu par les travailleurs indirectement touchés, comme ceux qui sont mis à pied par suite de l'arrêt de travail d'autres employés, n'est pas compris.

(4) Augmentation annuelle en % en vigueur des taux de base.

(1) Total exports include domestic exports and re-exports.
(2) The figures reflect a number of adjustments applied to the customs totals to make them consistent with the concepts and definitions used in the system of national accounts. For more information about these adjustments, refer to Quarterly Estimates of the Canadian Balance of International Payments (Catalogue no. 67-001-XIB).
(3) Sums of components do not equal totals, due to balance of payments adjustments.

(1) Les exportations totales comprennent les exportations nationales et les réexportations.
(2) Les chiffres tiennent compte d'un certain nombre d'ajustements apportés aux totaux douaniers afin de les rendre compatibles avec les concepts et les définitions utilisés dans le système des comptes nationaux. Pour plus de renseignements à propos de ces ajustements, voir la publication Estimations trimestrielles de la balance canadienne des paiements internationaux (nº 67-001-XIB au catalogue).
(3) Le total ne correspond pas à la somme des composantes en raison des ajustements de la balance des paiements.

SERVICES INDICATORS

For and About Businesses Serving the Business of Canada ...

At last, current data and expert analysis on this VITAL sector in one publication!

The services sector now dominates the industrial economies of the world. Telecommunications, banking, advertising, computers, real estate, engineering and insurance represent an eclectic range of services on which all other economic sectors rely.

Despite their critical economic role, however, it has been hard to find out what's happening in these industries. Extensive and time-consuming efforts have, at best, provided a collection of diverse bits and pieces of information ... an incomplete basis for informed understanding and effective action.

Now, instead of this fragmented picture, ***Services Indicators*** brings you a cohesive whole. An innovative quarterly from Statistics Canada, this publication **breaks new ground**, providing timely updates on performance and developments in:

- *Communications*
- *Finance, Insurance and Real Estate*
- *Business Services*

Services Indicators brings together analytical tables, charts, graphs and commentary in a stimulating and inviting format. From a wide range of key financial indicators including profits, equity, revenues, assets and liabilities, to trends and analysis of employment, salaries and output – PLUS a probing feature article in every issue, ***Services Indicators*** gives you the complete picture **for the first time**!

Finally, anyone with a vested interest in the services economy can go to ***Services Indicators*** for **current** information on these industries ... both at-a-glance and in more detail than has ever been available before – all in one unique publication.

If **your** business is serving business in Canada, or if you are involved in financing, supplying, assessing or actually using these services, ***Services Indicators*** is a turning point – an opportunity to forge into the future armed with the most current insights and knowledge.

INDICATEURS DES SERVICES

Au sujet des entreprises au service des affaires du Canada et à leur intention...

Enfin regroupées en une publication, des données courantes et des analyses éclairées sur ce secteur ESSENTIEL!

Le secteur des services domine à l'heure actuelle les économies industrielles du monde. Les télécommunications, les opérations bancaires, la publicité, l'informatique, l'immobilier, le génie et l'assurance représentent une gamme éclectique de services sur lesquels reposent tous les autres secteurs économiques.

En dépit de leur rôle critique sur le plan économique, il est toutefois difficile de savoir ce qui se passe dans ces branches d'activité. Des efforts considérables et fastidieux ont permis, au mieux, de rassembler une collection de renseignements fragmentaires divers... qui ne favorisent pas la compréhension avisée et la prise de mesures efficaces.

Remplacez **maintenant** ce tableau fragmentaire par l'image cohérente que vous offre ***Indicateurs des services***. Cette publication trimestrielle innovatrice de Statistique Canada **pénètre dans un domaine inexploré**, fournissant des aperçus opportuns du rendement et des progrès dans les domaines suivants :

- *Communications*
- *Finance, assurance et immobilier*
- *Services aux entreprises*

Indicateurs des services rassemble des tableaux analytiques, des diagrammes, des graphiques et des observations en un mode de présentation stimulant et attrayant. En puisant à même une vaste gamme d'indicateurs financiers importants, allant notamment des profits, des capitaux propres, des recettes, de l'actif et du passif aux tendances et analyses de l'emploi, des salaires et de la production – à laquelle s'ajoute un article de fond exploratif dans chaque numéro, ***Indicateurs des services*** brosse **pour la première fois** un tableau complet!

Enfin, quiconque s'intéresse au secteur des services peut consulter ***Indicateurs des services*** pour trouver des renseignements **courants** sur ces branches d'activité... tant sous une forme sommaire qu'à un niveau de détail n'ayant jamais encore été offert – et ce, dans une même publication.

Si vous êtes de ceux qui fournissent des services aux entreprises canadiennes, ou si vous financez, fournissez ou évaluez ces services ou y avez en fait recours, ***Indicateurs des services*** représente un tournant – une chance de s'aventurer dans l'avenir en étant armé des réflexions et connaissances les plus actuelles.

(1) Annual data are averages of the monthly estimates except for benefit weeks and claims received, where the sums are used. Another estimate of EI, derived from annual tax returns filed with Revenue Canada, is also available on request.

(2) The calculation of these figures changed as of July 1, 1996, as did the CANSIM identifiers for the series, due to definitional differences created by new legislation.

(3) Includes all strikes and lockouts, legal or illegal, lasting one-half day or more and amounting to 10 or more person-days lost. Time lost by workers indirectly affected, such as those laid off because of a stoppage by other employees, is not included.

(4) Effective annual % increase in base rates.

(1) Les données annuelles sont obtenues en calculant la moyenne des totaux mensuels sauf dans le cas du nombre de prestations et des demandes initiales et renouvelées pour lesquelles on prend la somme. Une autre estimation annuelle du nombre de personnes visées par l'assurance-emploi, tirée des déclarations d'impôt de Revenu Canada,est disponible.

(2) À partir de juillet 1996, ces séries son calculées différemment et les identificateurs de CANSIM ont changé en raison des nouvelles définitions attribuables aux modifications législatives.

(3) Comprennent tous les lock-out et les grèves, qu'ils soient légaux ou illégaux, d'une durée d'une demi-journée ou plus et représentant 10 jours-personnes ou plus de temps perdu. Le temps perdu par les travailleurs indirectement touchés, comme ceux qui sont mis à pied par suite de l'arrêt de travail d'autres employés, n'est pas compris.

(4) Augmentation annuelle en % en vigueur des taux de base.

(1) Total exports include domestic exports and re-exports.

(2) The figures reflect a number of balance of payments adjustments applied to the customs totals to make them consistent with the concepts and definitions used in the system of national accounts. For more information, please refer to Canada's Balance of International Payments (Catalogue no. 67-001-XIB).

(3) Sums of components do not equal totals, due to balance of payments adjustments.

(1) Les exportations totales comprennent les exportations nationales et les réexportations.

(2) Les chiffres tiennent compte d'un certain nombre d'ajustements de la balance des paiements apportés aux totaux douaniers afin de les rendre compatibles avec les concepts et les définitions utilisés dans le système des comptes nationaux. Pour plus de renseignements, voir la publication Balance des paiements internationaux du Canada (nº 67-001-XIB au catalogue).

(3) Le total ne correspond pas à la somme des composantes en raison des ajustements de la balance des paiements.

(1) Annual data are averages of the monthly estimates except for benefit weeks and claims received, where the sums are used. Another estimate of EI, derived from annual tax returns filed with Revenue Canada, is also available on request.

(2) The calculation of these figures changed as of July 1, 1996, as did the CANSIM identifiers for the series, due to definitional differences created by new legislation.

(3) Includes all strikes and lockouts, legal or illegal, lasting one-half day or more and amounting to 10 or more person-days lost. Time lost by workers indirectly affected, such as those laid off because of a stoppage by other employees, is not included.

(4) Effective annual % increase in base rates.

(1) Les données annuelles sont obtenues en calculant la moyenne des totaux mensuels sauf dans le cas du nombre de prestations et des demandes initiales et renouvelées pour lesquelles on prend la somme. Une autre estimation annuelle du nombre de personnes visées par l'assurance-emploi, tirée des déclarations d'impôt de Revenu Canada,est disponible.

(2) À partir de juillet 1996, ces séries son calculées différemment et les identificateurs de CANSIM ont changé en raison des nouvelles définitions attribuables aux modifications législatives.

(3) Comprennent tous les lock-out et les grèves, qu'ils soient légaux ou illégaux, d'une durée d'une demi-journée ou plus et représentant 10 jours-personnes ou plus de temps perdu. Le temps perdu par les travailleurs indirectement touchés, comme ceux qui sont mis à pied par suite de l'arrêt de travail d'autres employés, n'est pas compris.

(4) Augmentation annuelle en % en vigueur des taux de base.

(1) Total exports include domestic exports and re-exports.
(2) The figures reflect a number of balance of payments adjustments applied to the customs totals to make them consistent with the concepts and definitions used in the system of national accounts. For more information, please refer to Canada's Balance of International Payments (Catalogue no. 67-001-XIE).
(3) Sums of components do not equal totals, due to balance of payments adjustments.

(1) Les exportations totales comprennent les exportations nationales et les réexportations.
(2) Les chiffres tiennent compte d'un certain nombre d'ajustements de la balance des paiements apportés aux totaux douaniers afin de les rendre compatibles avec les concepts et les définitions utilisés dans le système des comptes nationaux. Pour plus de renseignements, voir la publication Balance des paiements internationaux du Canada (nº 67-001-XIF au catalogue).
(3) Le total ne correspond pas à la somme des composantes en raison des ajustements de la balance des paiements.

(1) Annual data are averages of the monthly estimates except for benefit weeks and claims received, where the sums are used. Another estimate of EI, derived from annual tax returns filed with Revenue Canada, is also available on request.

(2) The calculation of these figures changed as of July 1, 1996, as did the CANSIM identifiers for the series, due to definitional differences created by new legislation.

(3) Includes all strikes and lockouts, legal or illegal, lasting one-half day or more and amounting to 10 or more person-days lost. Time lost by workers indirectly affected, such as those laid off because of a stoppage by other employees, is not included.

(4) Effective annual % increase in base rates.

(1) Les données annuelles sont obtenues en calculant la moyenne des totaux mensuels sauf dans le cas du nombre de prestations et des demandes initiales et renouvelées pour lesquelles on prend la somme. Une autre estimation annuelle du nombre de personnes visées par l'assurance-emploi, tirée des déclarations d'impôt de Revenu Canada,est disponible.

(2) À partir de juillet 1996, ces séries son calculées différemment et les identificateurs de CANSIM ont changé en raison des nouvelles définitions attribuables aux modifications législatives.

(3) Comprennent tous les lock-out et les grèves, qu'ils soient légaux ou illégaux, d'une durée d'une demi-journée ou plus et représentant 10 jours-personnes ou plus de temps perdu. Le temps perdu par les travailleurs indirectement touchés, comme ceux qui sont mis à pied par suite de l'arrêt de travail d'autres employés, n'est pas compris.

(4) Augmentation annuelle en % en vigueur des taux de base.

(1) Total exports include domestic exports and re-exports.
(2) The figures reflect a number of balance of payments adjustments applied to the customs totals to make them consistent with the concepts and definitions used in the system of national accounts. For more information, please refer to Canada's Balance of International Payments (Catalogue no. 67-001-XIE).
(3) Sums of components do not equal totals, due to balance of payments adjustments.

(1) Les exportations totales comprennent les exportations nationales et les réexportations.
(2) Les chiffres tiennent compte d'un certain nombre d'ajustements de la balance des paiements apportés aux totaux douaniers afin de les rendre compatibles avec les concepts et les définitions utilisés dans le système des comptes nationaux. Pour plus de renseignements, voir la publication Balance des paiements internationaux du Canada (nº 67-001-XIF au catalogue)
(3) Le total ne correspond pas à la somme des composantes en raison des ajustements de la balance des paiements.

Data contained in the tables are as available on June 27, 2006.

Some tables contain selected components and thus do not add to the totals. As well, most figures are rounded.

Accurate and timely statistical information could not be produced without their continued cooperation and goodwill.

Les données publiées dans les tableaux sont les données disponibles le 27 juin 2006.

Certains tableaux comprennent des composantes choisies et donc leurs sommes diffèrent des totaux. De plus, la plupart des données sont arrondies.

Les numéros de CANSIM correspondant aux données de cette publication, aussi appelés les nombres vecteurs, apparaissent au-dessus de chaque colonne de données. Pour accéder à un numéro de vecteur dans CANSIM, on doit taper la lettre «V» avant le numéro.

À moins d'avis contraire, tous les numéros de téléphone sont dans l'indicatif régional 613.

(1) Annual data are averages of the monthly estimates except for benefit weeks and claims received, where the sums are used. Another estimate of EI, derived from annual tax returns filed with Revenue Canada, is also available on request.

(2) The calculation of these figures changed as of July 1, 1996, as did the CANSIM identifiers for the series, due to definitional differences created by new legislation.

(3) Includes all strikes and lockouts, legal or illegal, lasting one-half day or more and amounting to 10 or more person-days lost. Time lost by workers indirectly affected, such as those laid off because of a stoppage by other employees, is not included.

(4) Effective annual % increase in base rates.

(1) Les données annuelles sont obtenues en calculant la moyenne des totaux mensuels sauf dans le cas du nombre de prestations et des demandes initiales et renouvelées pour lesquelles on prend la somme. Une autre estimation annuelle du nombre de personnes visées par l'assurance-emploi, tirée des déclarations d'impôt de Revenu Canada,est disponible.

(2) À partir de juillet 1996, ces séries son calculées différemment et les identificateurs de CANSIM ont changé en raison des nouvelles définitions attribuables aux modifications législatives.

(3) Comprennent tous les lock-out et les grèves, qu'ils soient légaux ou illégaux, d'une durée d'une demi-journée ou plus et représentant 10 jours-personnes ou plus de temps perdu. Le temps perdu par les travailleurs indirectement touchés, comme ceux qui sont mis à pied par suite de l'arrêt de travail d'autres employés, n'est pas compris.

(4) Augmentation annuelle en % en vigueur des taux de base.

(1) Total exports include domestic exports and re-exports.
(2) The figures reflect a number of balance of payments adjustments applied to the customs totals to make them consistent with the concepts and definitions used in the system of national accounts. For more information, please refer to Canada's Balance of International Payments (Catalogue no. 67-001-XIE).
(3) Sums of components do not equal totals, due to balance of payments adjustments.

(1) Les exportations totales comprennent les exportations nationales et les réexportations.
(2) Les chiffres tiennent compte d'un certain nombre d'ajustements de la balance des paiements apportés aux totaux douaniers afin de les rendre compatibles avec les concepts et les définitions utilisés dans le système des comptes nationaux. Pour plus de renseignements, voir la publication Balance des paiements internationaux du Canada (nº 67-001-XIF au catalogue).
(3) Le total ne correspond pas à la somme des composantes en raison des ajustements de la balance des paiements.
